

eventpowwow

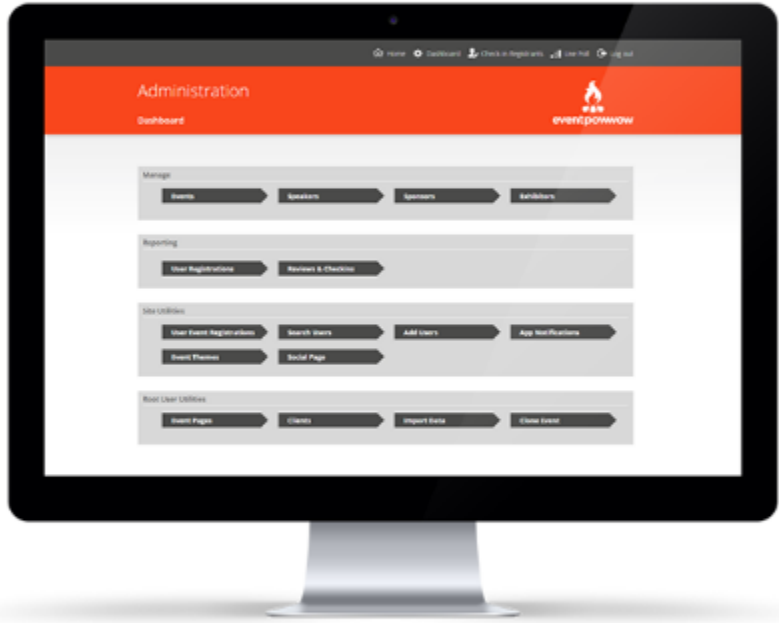

**eventpowwow is a unique
combined native app and
responsive microsite that lets
event organisers give delegates
all of the info they need, quickly
and easily.**

**...both easily updated
at the same time,
through a single Content
Management System.**

Create and run as many events as you wish through a single app and create supporting fully responsive microsites for each of them.

**Of course we have
all of the basics
you would expect
covered also...**

**...and some you wouldn't,
such as private and
expert chat.**

**And of course social
account integration comes
as standard.**

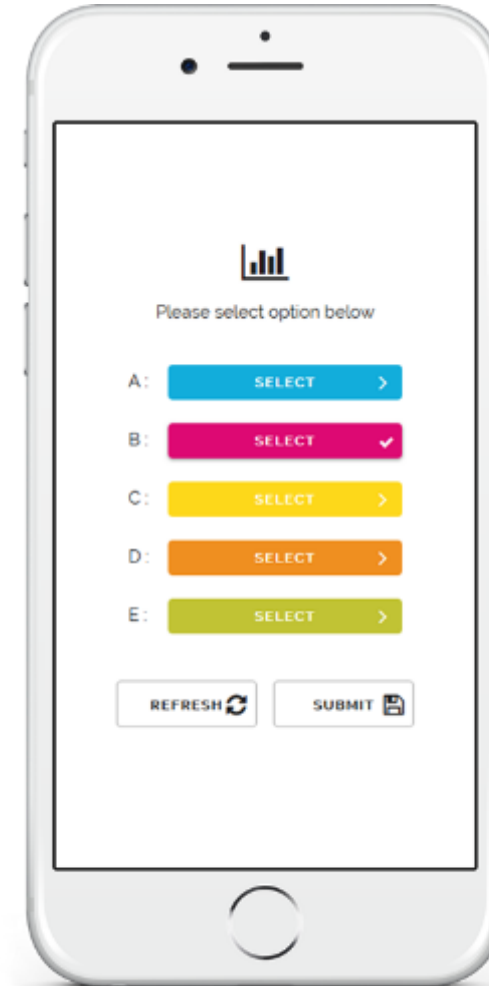

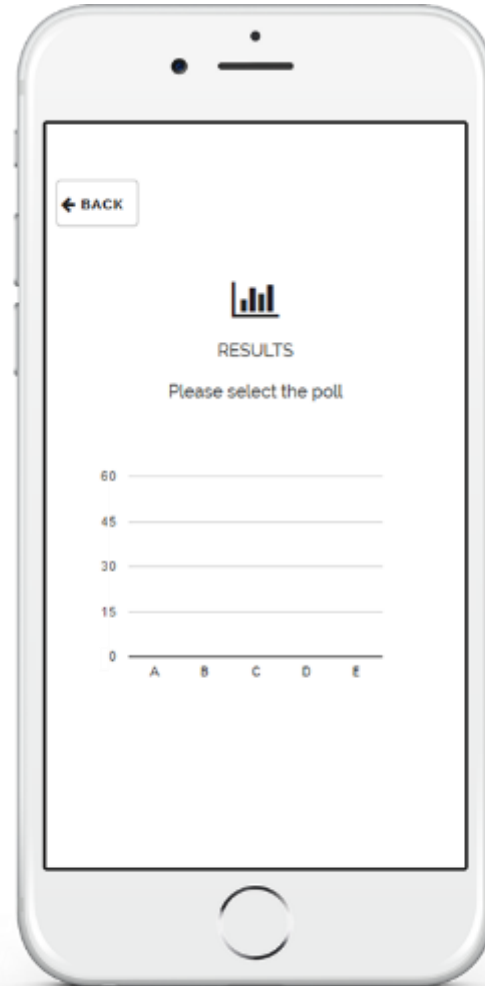

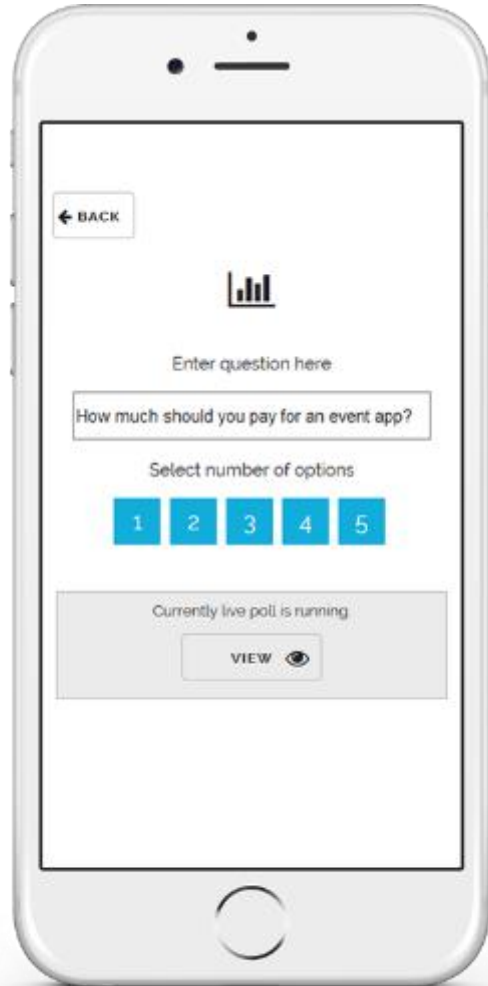

Private

Chat

Need to gauge audience opinion? You can do that via instant polls.

**Say goodbye to flaky venue
WiFi, we don't need it.**

It's as simple as that.

Great value, and with simple, clear pricing.

Welcome

At this year's Cloud Expo at RPU Twickenham, you'll discover our key transformation and growth strategies for Cloud, Analytics, Mobile and Social. You'll also have over 27 thought-provoking breakout sessions. Don't miss it.

The Cloud in itself is not the answer to many business data issues. The Cloud merely facilitates the delivery of innovative solutions to help your business work more effectively.
